

STATE PROFILES

Last year more than 1.5 million Americans in national service were on the frontlines of America's problems, meeting critical needs in education, public safety, human needs and the environment. Whether serving in AmeriCorps, Learn and Serve America, or Senior Corps, these Americans improved their communities, strengthened the nonprof-

it sector and put into practice the habits of good citizenship.

To communicate the scope of national service on the state level, the Corporation has created State Profiles. The following summaries are taken from State Profiles and show national service programs, participants and funding levels for all fifty states, the District of Columbia and

Puerto Rico for the 2000-2001 program year. Complete State Profiles including accomplishment highlights, testimonials, detailed program lists and contact information are available at the Corporation's website, www.nationalservice.org.
